Dear Dr. De Ninno:

Thank you for submitting your manuscript "EXPERIMENTAL EVIDENCE OF 4He PRODUCTION IN A COLD FUSION EXPERIMENT." to Science. Because your manuscript was not given a high priority rating during the initial screening process, we will not be able to send it out for in-depth review. Although your analysis is interesting, we feel that the scope and focus of your paper make it more appropriate for a more specialized journal. We are therefore notifying you so that you can seek publication elsewhere.

We now receive many more interesting papers than we can publish. We therefore send for in-depth review only those papers most likely to be ultimately published in Science. Papers are selected on the basis of discipline, novelty, and general significance, in addition to the usual criteria for publication in specialized journals. Therefore, our decision is not necessarily a reflection of the quality of your research but rather of our stringent space limitations.

We wish you every success when you submit the paper elsewhere.

Sincerely,

Ian Osborne, Ph.D.
Associate Editor
